Expanding access to low-fee, evidence-based trauma therapy

–

Training Opportunities

- Weekly didactic training on topics covering PTSD and its related subjects.
- Weekly case consultation with staff and peers
- Opportunity to run groups
- Training in evidence-based therapies such as:
    - Acceptance and Commitment Therapy
    - EMDR
    - Prolonged Exposure
    - Written Exposure Therapy
    - Accelerated Resolution Therapy

Our Story

In 2016, Drs. Matthew McKay and Robyn Walser set out on a mission to increase access to low-fee, evidence-based psychotherapy in the Bay Area which led to the opening of Bay Area Trauma Recovery Clinical Services (BATRCS).

BATRCS is devoted to treating simple and complex PTSD from any source (childhood abuse, domestic violence, sexual assault, crime, military related trauma, accidents, disasters, health related trauma, etc.).

Here we provide what so few clinics in the Bay Area offer: low fee trauma therapy. **Many of our clients pay as little as $30 per session.**

Because of that, we heavily rely on generous donors for financial support so that we can continue to provide access to these much needed services.

Services Provided

Intake
($20)

Individual Therapy
($30 - $150)
Fees based on income

- Acceptance and Commitment Therapy
- Cognitive Behavioral Therapy
- Prolonged Exposure
- Written Exposure
- EMDR
- Accelerated Resolution Therapy

Group Therapy
($20/group session)

- Emotion Efficacy Groups
- Advanced Emotion Efficacy Skills
- Post-Trauma Growth Group

Our therapists are experienced graduate student clinicians who are supervised and fully trained by our licensed clinical psychologists who specialize in treating trauma.
